# BIOLOGY

A Course for 'O' Level

Lam Peng Kwan  
Eric Y K Lam

Consultant  
Dr Geoff Hay

# Contents

<b>Chapter 1 What Is Biology?</b>	<b>1</b>
1.1 Why Study Biology?	2
1.2 The Living Organism	4
1.3 Classification in Biology	7
<b>SECTION II: ORGANIZATION AND MAINTENANCE OF THE INDIVIDUAL</b>	
<b>Chapter 2 Cells : The Building Blocks of Life</b>	<b>12</b>
2.1 Cell Structure and Organization	13
2.2 Specialized Cells, Tissues, Organs and Systems	18
<b>Chapter 3 Diffusion, Osmosis and Surface Area : Volume Ratio</b>	<b>23</b>
3.1 Diffusion	24
3.2 Osmosis	26
3.3 Active Transport	33
3.4 Surface Area : Volume Ratio	33
<b>Chapter 4 Enzymes</b>	<b>40</b>
4.1 What Are Enzymes?	42
4.2 Classification of Enzymes	44
4.3 Characteristics of Enzymes	44
<b>Chapter 5 Nutrition</b>	<b>55</b>
5.1 The Need for Food	56
5.2 Nutrients in Food	57
5.3 Food Values and Diet	72
<b>Chapter 6 Nutrition in Mammals</b>	<b>82</b>
6.1 Holozoic Nutrition	83
6.2 Mammalian Digestive System	84
6.3 Digestion in Humans	88
6.4 Absorption	91
6.5 Assimilation	94
<b>Chapter 7 Nutrition in Plants</b>	<b>99</b>
7.1 Photosynthesis	100
7.2 The Leaf: Nature's Food-Making Factory	111
7.3 Mineral Nutrition in Plants	115
<b>Chapter 8 Transport in Mammals</b>	<b>120</b>
8.1 The Need for a Transport System	122
8.2 Blood	122
8.3 The Circulatory System	128
8.4 Double Circulation in Mammals	131
<b>Chapter 9 Transport of Materials in Flowering Plants</b>	<b>143</b>
9.1 The Structure of Flowering Plants in Relation to Transport	145
9.2 Moving Water against Gravity	152

<b>Chapter 10</b>	<b>Respiration</b>	<b>161</b>
10.1	Why Do Living Organisms Breathe?	162
10.2	Gaseous Exchange in Animals	169
10.3	Gaseous Exchange in Green Plants	178
<b>Chapter 11</b>	<b>Excretion</b>	<b>182</b>
11.1	What Is Excretion?	183
11.2	Excretion in Mammals	184
<b>Chapter 12</b>	<b>Homeostasis</b>	<b>194</b>
12.1	The Need for Homeostasis	195
12.2	The Mammalian Skin	199
<b>Chapter 13</b>	<b>Co-ordination and Response: I The Nervous System in Mammals</b>	<b>208</b>
13.1	What Is Sensitivity?	209
13.2	The Nervous System of Mammals	210
<b>Chapter 14</b>	<b>Co-ordination and Response: II Animal Receptor Organs</b>	<b>221</b>
14.1	What Are Sense Organs?	222
14.2	The Mammalian Eye	222
14.3	Vision	226
<b>Chapter 15</b>	<b>Co-ordination and Response: III Hormones and Endocrine Glands</b>	<b>230</b>
15.1	Hormones	232
15.2	Hormonal and Nervous Control	236
<b>Chapter 16</b>	<b>Drugs</b>	<b>240</b>
16.1	What Is a Drug?	241
16.2	Medicinal Drugs	242
16.3	Alcohol	243
16.4	Drug Abuse	244
16.5	Smoking	245

## SECTION II: MICROORGANISMS AND BIOTECHNOLOGY

<b>Chapter 17</b>	<b>Microorganisms and Their Applications in Biotechnology</b>	<b>254</b>
17.1	Microorganisms	255
17.2	Role of Microorganisms in Decomposition	259
17.3	Biotechnology	260

## SECTION III: RELATIONSHIP OF ORGANISMS WITH ONE ANOTHER AND WITH THE ENVIRONMENT

<b>Chapter 18</b>	<b>Ecology</b>	<b>268</b>
18.1	What Is Ecology?	269
18.2	The Ecosystem	275
18.3	Nutrient Cycling in Nature	281
18.4	Parasitism	284

<b>Chapter 19</b>	<b>Effects of Human Activity on the Ecosystem</b>	<b>290</b>
19.1	Deforestation	291
19.2	Pollution	294
19.3	Conservation	301

#### SECTION IV : DEVELOPMENT OF ORGANISMS AND CONTINUITY OF LIFE

<b>Chapter 20</b>	<b>Reproduction in Plants</b>	<b>309</b>
20.1	Asexual Reproduction	310
20.2	Sexual Reproduction in Flowering Plants	314
20.3	Change of Form in Plants during Growth	327

<b>Chapter 21</b>	<b>Sexual Reproduction in Animals</b>	<b>337</b>
21.1	Features of Sexual Reproduction in Animals	338
21.2	Reproduction in Man	340
21.3	Family Planning	349
21.4	Sexually Transmitted Diseases	351

<b>Chapter 22</b>	<b>Heredity</b>	<b>357</b>
22.1	Monohybrid Inheritance: Past and Present	359
22.2	Multiple Alleles	369
22.3	Mutations	371
22.4	Discontinuous and Continuous Variation	374
22.5	Selection	375
22.6	Genetic Engineering	380

<b>Glossary</b>	<b>388</b>
