# Brief Contents

DETAILED CONTENTS x

PREFACE xix

VISUAL GUIDE xxiii

## Part One

### Life, Science, and Discovery 1

- 1 A Brief History and the Enchanted Isles 2
- 2 Scientists and Their Science 18
- 3 The Chemistry of Life 30

## Part Two

### Cells, Energy, and Inheritance 55

- 4 The Cell and Its Structure 56
- 5 Energy: The Dance of Life 81
- 6 The Cell and Its Cycles 101
- 7 Inheritance: From Mendel to Molecules 120
- 8 Advances in Genetics 141

## Part Three

### The Diversity of Changing Life 155

- 9 The First Life 156
- 10 The Processes of Evolution 171
- 11 Diversity I: The Monera, Protista, Fungi, and Viruses 197
- 12 Diversity II: The Plants 224
- 13 Diversity III: Animals 236

## Part Four

### Reproduction and Development 269

- 14 Plant Reproduction and Development 270
- 15 Animal Reproduction 288
- 16 Animal Development 310

## Part Five

### Systems and Their Control 333

- 17 Support and Muscular Systems 334
- 18 Homeostasis and the Internal Environment 349
- 19 The Respiratory, Circulatory, and Digestive Systems 363
- 20 The Immune System 387
- 21 Hormones and Nerves 404
- 22 The Nervous System 421
- 23 The Senses 446

## Part Six

### Behavior and the Environment 459

- 24 Animal Behavior 460
- 25 Biomes and Communities 481
- 26 Population Dynamics 508
- 27 Human Populations 524
- 28 Resources, Energy, and Human Life 535
- 29 Bioethics, Technology, and Environment 559
